

## DATASHEET

# Q - QULU SERVER 2TB

4 CHANNEL ARM® BASED SERVER WITH  
4 QULU LICENSES PRE-INSTALLED

# ARM®

Vista is pleased to announce the release of the Q, a 4 channel Arm® based server with 4 qulu licenses pre-installed.

Designed as a 4ch standalone recorder with embedded 2TB HDD storage, the Q is ideal for smaller sites and offers all the features of the popular qulu VMS. As your security needs grow, Q can be easily clustered with other Q devices and servers on the network to form part of a larger system that then brings automatic failover with up to 12 cameras per Q server. This makes qulu VMS systems simple to design and easy to set up and maintain.

The 1GB of RAM allows 4 x 1080p realtime images to be displayed on the qulu client without affecting recording performance. Separate, dedicated storage for the Linux OS ensures all 2TB of the HDD goes towards storing images.

The compact dimensions, low power consumption and quiet operation of the Q ensures that it will fit into the majority of domestic and commercial environments and can be sited to suit, rather than bringing all network cables back to a central point/dedicated server room. This allows for a distributed recording solution - all of which go towards providing a resilient base for your security system.

### Key Features:

#### Experience qulu on smaller systems

Q comes with 4 pre-loaded qulu licenses, ideal for smaller systems.

#### Ultimate scalability

As your security needs grow, Q can be clustered easily to form part of a larger system.

#### Distributed architecture

Reduce the potential of a single point of failure.

#### True embedded NVR

Q is powered by an ARM Cortex™ A7 processor for ultimate power and flexibility.

#### Compact dimensions

The discreet size and quiet operation ensures suitability for domestic and commercial applications.

## TECHNICAL SPECIFICATION

INCLUDED SOFTWARE	4 qulu EDGE Recording Licenses
OPERATING SYSTEM	Embedded Linux (Debian) OS
CPU (PROCESSOR)	ARM Dual-Core Cortex™ A7 Processor
MEMORY	1GB RAM Processor 8GB SD Card (holds OS image)
STORAGE	1 x 2.5" HDD (unit shipped with 2TB hard drive) Max Height: < 9.7mm Max Width: 69.85 ± .25mm Max Length: 100.35mm +0.2/-0.25mm
ENVIRONMENTAL	Operating Temp: 0°C to 40°C Relative humidity: 10% to 90% (non-condensing)
MOUNT	Universal - wall, ceiling, table, monitor
I/O INTERFACES	Power & HDD status LED 2 x USB 2.0 ports (Factory Use Only) 1 x HDMI (Factory Use Only) 1 x GB NIC
DIMENSIONS	145.5mm(L) x 84.5mm(W) x 29mm(H)
POWER INPUT	10W 5V AC 100V to 240V
